

FOR IMMEDIATE RELEASE:

LWCC Celebrates Excellence in Workplace Safety with 2023 Safest 70 Awards

Workers' comp provider honors Louisiana companies prioritizing safety.

Baton Rouge, Louisiana (March 28, 2023) – Louisiana's largest workers' comp provider LWCC is proud to announce the recipients of the 2023 Safest 70 Awards, recognizing outstanding achievements in workplace safety and risk management. Winners represent businesses and organizations that have demonstrated a commitment to creating safe and healthy work environments for their employees.

Established in 2008, the Safest 70 Awards serve as a testament to LWCC's ongoing dedication to promoting safety excellence across the state. By recognizing policyholders who prioritize the wellbeing of their workforce, LWCC aims to foster a culture of safety that benefits employees, businesses, and communities alike.

"Ensuring the safety of Louisiana's workforce is at the core of LWCC's mission," said Kristin W. Wall, LWCC President and CEO. "The Safest 70 Awards allow us to spotlight those businesses that go above and beyond to protect their employees by developing safer workplaces. Their commitment to safety not only helps reduce risks and accidents, but also helps us forge a safer, more resilient Louisiana for everyone."

Winners must be in good standing with LWCC for five consecutive years and work effectively with the LWCC Safety Services Team. Recognized companies seek ways to proactively improve workplace safety and are also quick to react and respond when potential safety hazards are identified, often in partnership with the LWCC's safety experts.

Recipients of this year's awards represent a diverse range of industries, highlighting the importance of safety across all sectors of the economy. The 2023 award recipients are:
